

## AGENDA

Special Budget Meeting Monday, April 14, 2025, at 6:30 p.m. Powassan Council Chambers 252 Clark Street, Powassan, ON

## 1. CALL TO ORDER

## 2. LAND ACKNOWLEDGMENT

"We respectfully acknowledge that we are on the traditional territory of the Anishinaabe Peoples, in the Robinson-Huron and Williams Treaties areas. We wish to acknowledge the long history of First Nations and Métis Peoples in Ontario and show respect to the neighbouring Indigenous communities. We offer our gratitude for their care of, and teachings about, our earth and our relations. May we continue to honour these teachings."

## 3. ROLL CALL

## 4. DISCLOSURE OF MONETARY INTEREST AND GENERAL NATURE THEREOF

## 5. <u>APPROVAL OF THE AGENDA</u>

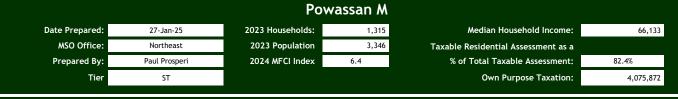

## 6. <u>NEW BUSINESS</u>

6.1 Ministry of Municipal Affairs and Housing – Financial Indicator Review
6.2 Treasurer/Director of Corporate Services, B. Robinson – 2025 Draft Water and Sewer Budget
6.3 Treasurer/Director of Corporate Services, B. Robinson – 2025 Draft Budget

## 7. MOTION TO ADJOURN

## FINANCIAL INDICATOR REVIEW

(Based on 2023 Financial Information Return)

## SUSTAINABILITY INDICATORS

The data and information contained in this document is for informational purposes only. It is not an opinion about a municipality and is not intended to be used on its own - it should be used in conjunction with other financial information and resources available. It may be used, for example, to support a variety of strategic and policy discussions.

## FINANCIAL INDICATOR REVIEW

(Based on 2023 Financial Information Return)

Powassan M

#### ΝΟΤΕΣ

Financial Information Returns ("FIRs") are a standard set of year-end reports submitted by municipalities to the Province which capture certain financial information. On an annual basis, Ministry staff prepare certain financial indicators for each municipality, based on the information contained in the FIRs. It is important to remember that these financial indicators provide a snapshot at a particular moment in time and should not be considered in isolation, but supported with other relevant information sources. In keeping with our Financial Information Return review process and follow-up, Ministry staff may routinely contact and discuss this information with municipal officials.

#### Supplementary Indicators of Sustainability and Flexibility

The following is a summary, adapted from the Chartered Professional Accountants of Canada Statement of Recommended Practice (SORP) 4.

- A government (including a municipality) may choose to report supplementary information on financial condition, to expand on and help explain the government's financial statements.
- Supplementary assessment of a government's financial condition needs to consider the elements of sustainability and flexibility.
- Sustainability in this context may be seen as the degree to which a municipality can maintain its existing financial obligations both in
  respect of its service commitments to the public and financial commitments to creditors, employees and others without inappropriately
  increasing the debt or tax burden relative to the economy within which it operates.
- Sustainability is an important element to include in an assessment of financial condition because it may help to describe a government's
  ability to manage its financial and service commitments and debt burden. It may also help to describe the impact that the level of debt
  could have on service provision.
- Flexibility is the degree to which a government can change its debt or tax level on the economy within which it operates to meet its existing financial obligations both in respect of its service commitments to the public and financial commitments to creditors, employees and others.
- Flexibility provides insights into how a government manages its finances. Increasing taxation or user fees may reduce a municipality's flexibility to respond when adverse circumstances develop if the municipality approaches the limit that citizens and businesses are willing to bear.

A municipality may temporarily use current borrowing, subject to the requirements set out in the Municipal Act to meet expenses and certain other amounts required in the year, until taxes are collected and other revenues are received. Municipal current borrowing cannot be carried over the long term or converted to long term borrowing except in very limited circumstances.

• For each element of financial condition, the report on indicators of financial condition should include municipality-specific indicators and municipality-related indicators. It may be useful to also include economy-wide information when discussing financial condition.

#### Additional Notes on what Financial Indicators may indicate:

Total Taxes Receivable less Allowance for Uncollectibles as a % of Total Taxes Levied - Shows how much of the taxes billed are not collected.

Net Financial Assets or Net Debt as % of Own Source Revenues - Indicates how much property tax and user fee revenue is servicing debt.

Reserves and Reserve Funds as a % of Municipal Expenses - Indicates how much money is set aside for future needs and contingencies.

Cash Ratio (Total Cash and Cash Equivalents as a % of Current Liabilities) - Indicates how much cash and liquid investments could be available to cover current obligations.

Debt Servicing Cost as a % of Total Revenues (Less Donated TCAs) - Indicates how much of each dollar raised in revenue is spent on paying down existing debt.

Closing Amortization Balance as a % or Total Cost of Capital Assets (Asset Consumption Ratio) - Indicates how much of the assets' life expectancy has been consumed.

Annual Surplus / (Deficit) (Less Donated TCAs) as a % of Own Source Revenues - Indicates the municipality's ability to cover its operational costs and have funds available for other purposes (e.g. reserves, debt repayment, etc.)

The Northern and Rural Municipal Fiscal Circumstances Index (MFCI) is used by the Ministry of Finance to calculate the "Northern and Rural Fiscal Circumstances Grant" aimed at northern as well as single and lower-tier rural municipalities. The index measures a municipality's fiscal circumstances. The MFCI is determined by six indicators: Weighted Assessment per Household, Median Household Income, Average Annual Change in Assessment (New Construction), Employment Rate, Ratio of Working Age to Dependent Population, and Per Cent of Population Above Low-Income Threshold. A lower MFCI corresponds to relatively positive fiscal circumstances, whereas a higher MFCI corresponds to more challenging fiscal circumstances. (Note: the MFCI index is only available for northern and rural municipalities)

# Powasean STAFF REPORT

To:CouncilFrom:OperationsRe:Bulldozer Rental Options

That council receive this staff report for budget informational purposes.

## ANALYSIS:

The purpose of this report is to outline the benefits of renting a bulldozer for landfill operations instead of purchasing a used unit. The cost savings from this approach will be recommended for allocation into the Municipal reserve fund, with the intention of utilizing these funds in the 2026 budget for the purchase of a new snowplow.

## **BACKGROUND:**

The Municipality a machine for landfill maintenance. Historically, this equipment has been considered for purchase, however renting has been identified as a possibly more cost-effective option.

## **Analysis:**

- The rental cost for a bulldozer for one week is \$3,937.00
- The projected usage is 6 or 7 rentals per year. This includes a monthly use during the hot summer months to try to reduce smells and animals gathering at the landfill. If we rent during June, July, August and possibly September, then one or two rentals in the winter months to facilitate compaction and maintenance.
- The estimated annual rental expenditure ranges between \$23,627.40 and \$27,565.30
- The cost of purchasing a used machine would need to include maintenance and potential repairs

If a rental option is selected by council, Operations recommends the purchase price of the used piece of machinery be allocated to the reserve fund and marked for the purchase of a new snowplow.

## The Municipality of POWASSAN STAFF REPORT

To: Council From: Operations Re: Sidewalk Machine

Received for informational purposes.

## **BACKGROUND:**

As part of the ongoing efforts to maintain efficient and reliable winter sidewalk maintenance, staff has evaluated the costs and benefits of repairing the existing sidewalk machine versus purchasing a new machine. The current machine has required frequent repairs, leading to increased maintenance costs, operational downtime and reduced efficiency. Given its age and the rising expenses associated with keeping the existing machine in service, staff recommends that council consider investing in a new machine to enhance reliability and improve service delivery for residents.

## ANALYSIS:

The current sidewalk maintenance machine has experienced significant mechanical issues, including the need to rebuild the transmission and yolk assembly. Additionally, the radiator needs to be replaced along with the PTO shaft assembly. These repairs are essential for the continued reliable operation of the machine.

**Repair** Cost Estimate: Option 1: Repair all known defects - \$ 15,756 Option 2: Repair enough to make the machine operational - \$8,756

Operations talked to the mechanic doing the repairs to our trackless machine. The mechanic said current costs to get the trackless back into the snow removal rotation would cost \$8,756. Once the machine is in working condition the mechanic has identified another \$7,000 in repairs that are pending. The mechanic said the company rebuilding the hydraulic pump will normally apply a 3 to 6 months warranty on the rebuild. Historically, the trackless machine has cost a total of \$33,551 to repair over the last 5 years. These repairs also indicate down time for the machine which lowers the overall level of service achieved on our sidewalks.

Operations received pricing to purchase a new tractor with a snowblower and sanding attachment to replace the existing trackless machine. Total cost of the new tractor is \$62,732. The new tractor comes with a 2-year bumper to bumper warranty and a 6-year drive train warranty. Current repair costs for the existing trackless machine are equal to 25 % of the purchase price of a new piece of equipment. Annual historical repairs have cost roughly 10% of the new tractor value.

Operations has priced used trackless machines which returned results ranging from \$8,500 to \$50,000. Operations recommends professional mechanical investigation if a used machine is the selected option.
