

MUNICIPALITY OF POWASSAN

ADDENDUM NO. 1

Tender No.: 2026-04

Project: Clark Street Asphalt Milling and Paving Project

Date: June 22, 2026

This Addendum forms part of the Contract Documents and shall be acknowledged by all bidders. Failure to acknowledge receipt of this Addendum may result in disqualification of the tender submission.

ITEM 1 – REVISION TO PROJECT QUANTITIES

Section 2 – Location of Work and Approximate Quantities is amended as follows:

The previously identified "Questionable Section for Possible Pulverize and Pave" is deleted and replaced with a Distressed Area Reconstruction section.

Estimated Distressed Area Reconstruction Area: **2,450 m²**

Estimated Mill and Pave Area: **3,180 m²**

Estimated Intersection Tie-In Area: **187 m²**

All quantities are approximate and payment shall be based on actual measured quantities completed and accepted by the Municipality.

ITEM 2 – REVISION TO SCOPE OF WORK

Delete all references to pulverizing and replace with the following:

Distressed Area Reconstruction

The identified distressed roadway section shall be reconstructed as follows:

- Mill and remove existing asphalt pavement.
- Remove and dispose of 150 mm of underlying granular material.
- Shape and proof-roll the exposed subgrade.
- Supply, place and compact 150 mm of Granular A.
- Fine grade the roadway surface.
- Supply, place and compact 60 mm SP12.5 hot mix asphalt.

The method of removal shall be at the Contractor's discretion provided the specified depth of removal is achieved and the exposed subgrade is prepared in accordance with the Contract Documents.

Removed asphalt and granular material may be mixed during the milling and removal operation and shall be considered a single waste stream for disposal purposes.

For information purposes only, the estimated quantities associated with this work are approximately 370 m³ of underlying granular material removal and disposal and approximately 800 tonnes of Granular A supply and placement. These quantities are estimates only and shall not form the basis of payment.

ITEM 3 – PROVISIONAL ITEMS

The following provisional items are added to the Contract:

Provisional Item No. 1 – Additional Excavation

Additional excavation and disposal of unsuitable material encountered below the specified 150 mm depth.

Unit of Measurement: m³

Provisional Item No. 2 – Type 2 Granular B

Supply, placement and compaction of Type 2 Granular B required to replace unsuitable material removed below the specified 150 mm depth.

Unit of Measurement: tonne

Provisional Item No. 3 – Geotextile Separator Fabric

Supply and installation of geotextile separator fabric.

Unit of Measurement: m²

Provisional Item No. 4 – Geogrid Reinforcement

Supply and installation of geogrid reinforcement.

Unit of Measurement: m²

All provisional work shall only be completed when directed by the Municipality.

ITEM 4 – STRUCTURE ADJUSTMENTS

Delete all references to adjustment of storm drains and catch basins.

Delete Tender Item:

"Adjust Storm Drains/Catch Basins to Finished Grade"

in its entirety.

Adjustment of manholes and valve boxes shall remain as specified within the Tender Documents.

ITEM 5 – MILLED SURFACES

Delete the requirement stating:

"No milled surface shall remain overnight unless approved by the Municipality."

Replace with:

"Milling and paving shall be coordinated to maintain a safe roadway condition. Milled surfaces may remain open to traffic overnight provided all transitions are properly tapered, drainage is maintained, structures are protected, and traffic control measures are maintained in accordance with Ontario Traffic Manual Book 7."

ITEM 6 – REVISED SCHEDULE OF PRICES

The Schedule of Prices contained within the Tender Documents is deleted in its entirety and replaced with the following:

REVISED SCHEDULE OF PRICES

Item	Description	Quantity	Unit	Unit Price	Total Price
1	Mill and Pave Area including milling, tack coat and placement of 60 mm compacted SP12.5 asphalt, including traffic control, sweeping, joints, handwork and incidentals	3,180	m ²	\$ _____	\$ _____
2	Distressed Area Reconstruction including milling/removal of asphalt, removal/disposal of 150 mm granular material, proof rolling, supply/place/compact 150 mm Granular A, grading, and placement of 60 mm compacted SP12.5 asphalt	2,450	m ²	\$ _____	\$ _____

Item	Description	Quantity	Unit	Unit Price	Total Price
3	Intersection Tie-Ins including milling, grading, tack coat, asphalt placement, handwork, restoration and matching existing grades	187	m ²	\$_____	\$_____
4	Additional Excavation Below 150 mm Depth (Provisional)	Unit Price	m ³	\$_____	N/A
5	Type 2 Granular B (Provisional)	Unit Price	tonne	\$_____	N/A
6	Geotextile Separator Fabric (Provisional)	Unit Price	m ²	\$_____	N/A
7	Geogrid Reinforcement (Provisional)	Unit Price	m ²	\$_____	N/A
8	Adjust Manholes to Finished Grade	5	each	\$_____	\$_____
9	Adjust Valve Box to Finished Grade	1	each	\$_____	\$_____
10	Contingency Allowance – To Be Used Only as Directed by the Municipality	1	L.S.		

Subtotal: \$_____

HST: \$_____

Total Tender Price: \$_____

The bidder acknowledges receipt of this Addendum No. 1 and agrees to complete the work in accordance with the Tender Documents as amended.

Contractor: _____

Authorized Signature: _____

Date: _____

All other Tender Documents shall remain unchanged.

END OF ADDENDUM NO. 1
